## **FORWARD-LOOKING STATEMENTS**

### **Factors that May Affect Future Results**

#### **(Cautionary Statements Under the Private Securities Litigation Reform Act of 1995)**

Certain information included in this Form 10-Q and other materials filed or to be filed by us with the Securities and Exchange Commission (as well as information included in oral statements or other written statements made or to be made by us or our representatives) contains or may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements can be identified by the fact that they do not relate strictly to historical or current facts. Statements that include the words “may,” “could,” “should,” “would,” “believe,” “expect,” “anticipate,” “estimate,” “intend,” “plan,” or other words or expressions of similar meaning, may identify forward-looking statements. We have based these forward-looking statements on our current expectations about future events. Forward-looking statements include statements that reflect management’s beliefs, plans, objectives, goals, expectations, anticipations, intentions with respect to the financial condition, results of operations, future performance and the business of us, including statements relating to our business strategy and our current and future development plans. These statements may also involve other factors which are detailed in the “Risk Factors” and other sections of our Annual Report on Form 10-K for the year ended April 30, 2018 and other filings with the Securities and Exchange Commission.

Although we believe that the assumptions underlying these forward-looking statements are reasonable, any or all of the forward-looking statements in this report and in any other public statements that are made may prove to be incorrect. This may occur as a result of inaccurate assumptions or as a consequence of known or unknown risks and uncertainties. Many factors discussed in this report will be important in determining our future performance. Consequently, actual results may differ materially from those that might be anticipated from forward-looking statements. In light of these and other uncertainties, you should not regard the inclusion of a forward-looking statement in this report or other public communications that we might make as a representation by us that our plans and objectives will be achieved, and you should not place undue reliance on such forward-looking statements.

We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Any further disclosures made on related subjects in our subsequent reports filed with the Securities and Exchange Commission should be consulted.

Notes to Condensed Consolidated Financial Statements

**Note 1. Basis of Presentation**

The interim financial information included herein is unaudited. However, the accompanying condensed consolidated financial statements include all adjustments of a normal recurring nature which, in the opinion of management, are necessary to present fairly our condensed consolidated balance sheets at July 31, 2018 and April 30, 2018, condensed consolidated statements of operations for the three months ended July 31, 2018 and 2017, and condensed consolidated statements of cash flows for the three months ended July 31, 2018 and 2017. Although we believe the disclosures in these financial statements are adequate to make the interim information presented not misleading, certain information relating to our organization and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) have been condensed or omitted in this Form 10-Q pursuant to Securities and Exchange Commission (“SEC”) rules and regulations. These financial statements should be read in conjunction with the audited consolidated financial statements for the year ended April 30, 2018 and the notes thereto included in our Annual Report on Form 10-K. The results of operations for the three months ended July 31, 2018 are not necessarily indicative of the results expected for the full year.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period and disclosure of contingent liabilities. On an ongoing basis, we evaluate our estimates, including those related to bad debts, investments, intangible assets and goodwill, property, plant and equipment, income taxes, employment benefits and contingent liabilities. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from those estimates.

Certain reclassifications have been made to conform prior year financial information to the current period presentation. Those reclassifications did not impact operating income, net income, working capital or stockholders’ equity. As of July 27, 2018, Club Fortune met the requirements for presentation as assets held for sale and discontinued operations under generally accepted accounting principles (see Note 13). Accordingly, the operations of Club Fortune have been classified as discontinued operations and Club Fortune’s assets and liabilities have been classified as held for sale for all periods presented.

**Note 2. Significant Accounting Policies**

**Revenue Recognition**

During the current quarter, we adopted Accounting Standards Codification Topic 606, *Revenue from Contracts with Customers* (“ASC 606”) using a modified retrospective approach as of the date of initial application, which was May 1, 2018. See Note 2, “New Accounting Pronouncements and Legislation Issued,” for a discussion of the new revenue standard and its impact on our unaudited Condensed Consolidated Financial Statements. Prior to the adoption of ASC 606, complimentary revenues pertaining to food and beverage and other were included in gross revenues and excluded from net revenues through promotional allowances in the unaudited Condensed Consolidated Statements of Operations. Subsequent to the adoption of ASC 606, complimentary revenues are included in food and beverage, and other revenues, as appropriate, in the unaudited Condensed Consolidated Statements of Operations. Complimentary other revenues, whether provided as nondiscretionary complimentary or discretionary complimentary, were as follows for continuing operations:

	<b>Three Months Ended</b>	
	<b>July 31, 2018</b>	<b>July 31, 2017</b>
Food and beverage	\$ 937,446	\$ 979,734
Other	39,361	41,658
Total complimenteries	<u>\$ 976,807</u>	<u>\$ 1,021,392</u>

**Fair Value**

U.S. generally accepted accounting principles defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and establishes a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy categorizes assets and liabilities measured at fair value into one of three different levels depending on the observability of the inputs employed in the measurement. The three levels are as follows:

Level 1 – Observable inputs such as quoted prices in active markets at the measurement date for identical, unrestricted assets or liabilities.

Level 2 – Other inputs that are observable directly or indirectly such as quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3 – Unobservable inputs for which there is little or no market data and for which we make our own assumptions about how market participants would price the assets and liabilities.

The following describes the valuation methodologies used by us to measure fair value:

Real estate held for sale is recorded at fair value less selling costs.

Goodwill and indefinite lived intangible assets are recorded at carrying value and tested for impairment annually, or more frequently, using projections of discounted future cash flows.

Interest rate swaps are adjusted on a recurring basis pursuant to accounting standards for fair value measurements. We categorize our interest rate swap as Level 2 for fair value measurement.

### **Concentrations of Credit Risk**

Financial instruments that potentially subject us to concentrations of credit risk are primarily notes receivable, cash and cash equivalents, accounts receivable and payable, and long term debt. Management performs periodic evaluations of the collectability of these notes and accounts receivable. Our cash deposits are held with large, well-known financial institutions, and, at times, such deposits may be in excess of the federally insured limit. The recorded value of cash, accounts receivable and payable, approximate fair value based on their short term nature; the recorded value of long term debt approximates fair value as interest rates approximate current market rates.

### **New Accounting Pronouncements and Legislation Issued**

#### Leases

In February 2016, the Financial Accounting Standards Board (“FASB”) issued amended accounting guidance that changes the accounting for leases and requires expanded disclosures about leasing activities. Under the new guidance, lessees will be required to recognize a right-of-use asset and a lease liability, measured on a discounted basis, at the commencement date for all leases with terms greater than twelve months. Lessor accounting will remain largely unchanged, other than certain targeted improvements intended to align lessor accounting with the lessee accounting model and with the updated revenue recognition guidance. Lessees and lessors must apply a modified retrospective transition approach for leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements. The amended guidance is effective for annual reporting periods (including interim periods within those periods) beginning after December 15, 2018, and early application is permitted. The Company is currently evaluating the impact this guidance will have on its financial position and results of operations.

#### Revenue Recognition

In May 2014, the FASB issued Accounting Standards Update (“ASU”) No. 2014-09, *Revenue from Contracts with Customers*, which introduced a new standard related to revenue recognition, ASC 606. Under ASC 606, recognition of revenue occurs when a customer obtains control of promised goods or services in an amount that reflects the consideration to which the entity expects to receive in exchange for those goods or services. In addition, the new revenue standard requires disclosure of the nature, amount, timing, and uncertainty of revenue and cash flows arising from customer contracts. In July 2015, the FASB issued ASU No. 2015-14, *Revenue from Contracts with Customers - Deferral of the Effective Date*, which deferred the implementation of ASC 606 to be effective for fiscal years beginning after December 15, 2017.

The Company adopted ASC 606 during the first quarter 2019 using the modified retrospective approach to all contracts as of the date of initial application, which was May 1, 2018. Adoption of the new revenue standard principally affected (1) how we measure the liability associated with our loyalty program and (2) the classification and, as it related to the measurement of revenues and expenses between gaming; food and beverage; and retail, and other. The modified retrospective approach required the Company to recognize the impact of adopting ASC 606 as a cumulative effect adjustment to our beginning retained earnings, which was an decrease of \$35,425 as of May 1, 2018. The cumulative effect adjustment related exclusively to re-measuring the liability associated with the loyalty program from a cost approach to an approach that reflects the estimated stand alone selling price (SSP) of the reward credits and certain tier benefits. In addition, the modified retrospective approach required the Company to provide disclosures describing the financial statement line items impacted by the new revenue standard (see below).

Prior to the adoption of ASC 606, we determined our liability for loyalty reward credits based on the estimated costs of goods and services to be provided and estimated redemption rates. Upon adoption of ASC 606, points awarded under our loyalty program constitute a material right and, as such, represent a performance obligation associated with the gaming contracts. Therefore, ASC 606 required us to allocate the revenues associated with the players' activity between gaming revenue and the estimated SSP of the reward credits.

In addition to the above, prior to the adoption of ASC 606, complimentary revenues pertaining to food and beverage and retail were included in gross revenues and excluded from net revenues through promotional allowances in the unaudited Condensed Consolidated Statements of Operations and the estimated costs of providing such complimentary goods and services were included as gaming expenses in the unaudited Condensed Consolidated Statements of Operations. However, subsequent to the adoption of ASC 606, food and beverage, and other services furnished to our guests on a complimentary basis is measured at the estimated SSP and included as revenues within food and beverage and other as appropriate, in the unaudited Condensed Consolidated Statements of Operations, with a corresponding decrease in gaming revenues. Additionally, subsequent to the adoption of ASC 606, the costs of providing such complimentary goods and services is included as expenses within food and beverage and other as appropriate, in the unaudited Condensed Consolidated Statements of Operations.

The amount by which each line item in continuing operations in our unaudited Condensed Consolidated Statement of Operations for the three months ended July 31, 2018 was affected by the new revenue standard as compared with the accounting guidance that was in effect before the change was as follows:

	<b>For the three months ended July 31, 2018</b>

#### Restricted Cash

In November 2016, the FASB issued ASU No. 2016-18, *Statement of Cash Flows - Restricted Cash (Topic 230)*, which amends the existing guidance relating to the disclosure of restricted cash and restricted cash equivalents on the statement of cash flows. The ASU requires that amounts generally described as restricted cash or restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. The Company adopted this guidance on May 1, 2018 on a retrospective basis and the updated disclosures are reflected for the periods presented in the Condensed Consolidated Statements of Cash Flows. For the three months ended July 31, 2017, the change in restricted cash of (\$49,141) was previously reported within net cash provided by (used in) operating activities.

A variety of proposed or otherwise potential accounting guidance is currently under study by standard-setting organizations and certain regulatory agencies. Due to the tentative and preliminary nature of such proposed accounting guidance, the Company has not yet determined the effect, if any, that the implementation of such proposed accounting guidance would have on its consolidated financial statements.

### Note 3. Restricted Cash

As of July 31, 2018 and April 30, 2018, we maintained \$2,517,272 and \$2,369,063, respectively, in restricted cash, which consists of player-supported jackpot funds for our Washington operations.

### Note 4. Goodwill and Intangible Assets

In connection with our acquisitions of the Washington mini-casinos on May 12, 2009, July 23, 2010 and July 18, 2011, we have goodwill and intangible assets of \$16,366,658, net of amortization for intangible assets with finite lives.

The change in the carrying amount of goodwill and other intangible assets for the three months ended July 31, 2018, is as follows:

	<b>Total</b>	<b>Goodwill</b>	<b>Other Intangibles, net</b>
Balance as of April 30, 2018	\$ 16,381,639	\$ 14,092,154	\$ 2,289,485
Current year amortization	(14,981)	-	(14,981)
Balance as of July 31, 2018	<u>\$ 16,366,658</u>	<u>\$ 14,092,154</u>	<u>\$ 2,274,504</u>

Goodwill and net intangibles assets by segment as of July 31, 2018, are as follows:

	<b>Total</b>	<b>Goodwill</b>	<b>Other Intangibles, net</b>
Washington	\$ 15,954,154	\$ 14,092,154	\$ 1,862,000
Corporate	412,504	-	412,504
Total	<u>\$ 16,366,658</u>	<u>\$ 14,092,154</u>	<u>\$ 2,274,504</u>

Intangible assets are generally amortized on a straight line basis over the useful lives of the assets. State gaming registration and trade names are not amortizable. A summary of intangible assets and accumulated amortization as of July 31, 2018, are as follows:

	<b>Gross Carrying Amount</b>	<b>Accumulated Amortization</b>	<b>Net</b>
Customer relationships	\$ 6,753,321	\$ (6,753,321)	\$ -
Non-compete agreements	1,018,000	(1,018,000)	-
State gaming registration	412,504	-	412,504
Trade names	1,862,000	-	1,862,000
Total	<u>\$ 10,045,825</u>	<u>\$ (7,771,321)</u>	<u>\$ 2,274,504</u>

Goodwill represents the excess of the purchase price over the fair market value of net assets acquired. Goodwill for our Nevada operations was \$2.7 million as of July 31, 2018 (see Note 13).

## Note 5. Property and Equipment

Property and equipment at July 31, 2018 and April 30, 2018, consist of the following:

	July 31, 2018	April 30, 2018	Estimated Service Life in Years
Building and improvements	\$ 1,661,367	\$ 1,653,534	15-39
Gaming equipment	2,391,596	2,391,596	3-5
Furniture and office equipment	3,553,252	3,500,778	3-7

Property and equipment, net	<u>\$ 3,215,451</u>	<u>\$ 3,254,367</u>	

## Note 6. Long-Term Debt

Our long-term financing obligations are as follows:

	July 31, 2018	April 30, 2018
\$23.0 million reducing revolving credit agreement, LIBOR plus an Applicable Margin, \$625,000 quarterly reductions beginning January 31, 2016 through November 30, 2020, and the remaining principal due on the maturity date of November 30, 2020, net of accumulated debt issuance costs of \$82,206 and \$104,760 at July 31, 2018 and April 30, 2018, respectively.	\$ 6,817,794	\$ 7,895,240
Total long-term financing obligations	<u>\$ 6,817,794</u>	<u>\$ 7,895,240</u>

On November 30, 2015, the Company amended its existing credit agreement with Mutual of Omaha Bank to increase the lending commitment to \$23 million. The Amended and Restated Credit Agreement ("Credit Facility") matures on November 30, 2020, and is secured by liens on substantially all of the real and personal property of the Company and its subsidiaries. The interest rate on the borrowing is based on LIBOR plus an Applicable Margin, determined quarterly beginning April 1, 2016, based on the total leverage ratio for the trailing twelve months. The interest rate on the balance as of July 31, 2018, is 4.58%. In addition, the Company was required to fix the interest rate on at least 50% of the credit facility through a swap agreement.

As of July 31, 2018, principal reductions due on the Credit Facility are as follows:

August 1, 2018 – July 31, 2019	\$ -
August 1, 2019 – July 31, 2020	-
August 1, 2020 – November 30, 2020	<u>6,900,000</u>
Total payments	6,900,000
Unamortized debt discount	<u>(82,206)</u>
Total long-term debt	<u>\$ 6,817,794</u>

The unamortized debt discount above consists of debt costs paid directly to the lender. The discount is amortized using the effective interest method over the period of the Credit Facility through interest expense.

During the quarter, we paid \$1.1 million to reduce the outstanding balance of the Credit Facility. As of July 31, 2018, we have \$9.2 million available to borrow per the Credit Agreement.

The Credit Facility contains customary covenants for a facility of this nature, including, but not limited to, covenants requiring the preservation and maintenance of the Company's assets and covenants restricting our ability to merge, transfer ownership, incur additional indebtedness, encumber assets and make certain investments. The Credit Facility also contains covenants requiring the Company to maintain certain financial ratios including a maximum total leverage ratio of 2.75 to 1.00 from February 1, 2017 through January 31, 2018, and 2.50 to 1.00 from February 1, 2018 until maturity; and lease adjusted fixed charge coverage ratio of no less than 1.15 to 1.00. We are in compliance with the covenant requirements of the Credit Facility as of July 31, 2018.

## Note 7. Interest Rate Swap

We are required by the Credit Facility to have a secured interest rate swap for at least 50% of the Credit Facility commitment. On December 28, 2015, the Company entered into a swap transaction with Mutual of Omaha Bank (“MOOB”), which has a calculation period as of the tenth day of each month through the maturity date of the Credit Facility. As of July 31, 2018, the Company had one outstanding interest rate swap with MOOB with a notional amount of \$8,062,500 at a swap rate of 1.77%, which as of July 31, 2018, effectively converts our floating-rate debt to a synthetic fixed rate of 4.27%. Under the terms of the swap agreement, the Company pays a fixed rate of 1.77% and receives a variable rate based on one-month LIBOR as of the first day of each floating-rate calculation period. Under the International Swap Dealers Association, Inc. (“ISDA”) confirmation, the floating index as of July 31, 2018 is set at 2.08%.

The Company did not designate the interest rate swap as a cash flow hedge and the interest rate swap did not qualify for hedge accounting under ASC Topic 815. Changes in our interest rate swap fair value are recorded in our condensed consolidated statements of operations. Each quarter, the Company receives fair value statements from the counterparty, MOOB. The fair value of the interest rate swap is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of the derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including forward interest rate curves. To comply with the provisions of ASC Topic 820, Fair Value Measurements and Disclosures, the Company incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty’s nonperformance risk in the fair value measurements. As a result of our evaluation of our interest rate swap as of July 31, 2018, we recorded a \$4,189 increase in our interest rate swap fair value for the three months ended July 31, 2018. As of July 31, 2018 and April 30, 2018, our interest rate swap fair value is a \$138,861 and \$134,672 asset, which is included in other assets as of July 31, 2018 and April 30, 2018 on the condensed consolidated balance sheets.

## Note 8. Equity Transactions and Stock Option Plan

We have obligations under our 2009 Equity Incentive Plan (the “2009 Plan”). On April 14, 2009, our shareholders approved the 2009 Plan providing for the granting of awards to our directors, officers, employees and independent contractors. The number of common stock shares reserved for issuance under the 2009 Plan is 1,750,000 shares. The 2009 Plan is administered by the Compensation Committee (the “Committee”) of the Board of Directors. The Committee has complete discretion under the plan regarding the vesting and service requirements, exercise price and other conditions. Under the 2009 Plan, the Committee is authorized to grant the following types of awards:

- Stock Options including Incentive Stock Options (“ISO”),
- Options not intended to qualify as ISOs,
- Stock Appreciation Rights, and
- Restricted Stock Grants.

Our practice has been to issue new or treasury shares upon the exercise of stock options. Stock option rights granted under the 2009 Plan generally have 5 or 10 year terms and vest in two or three equal annual installments, with some options grants providing for immediate vesting for a portion of the grant.

During the quarter ended July 31, 2018, there were no stock grants issued, vested or forfeited. As of July 31, 2018, there were 69,200 unvested stock grants at a weighted average \$2.23 value per share, as well as \$105,817 of unamortized compensation cost related to stock grants, which is expected to be recognized over approximately 2.2 years.

A summary of stock option activity under our share-based payment plan for the three months ended July 31, 2018 is presented below:

	<b>Options</b>	<b>Weighted Average Exercise Price</b>	<b>Weighted Average Remaining Contractual Term (Year)</b>	<b>Aggregate Intrinsic Value</b>
Outstanding at April 30, 2018	676,000	\$ 1.10		
Granted	-			
Exercised	-			
Forfeited or expired	-			
Outstanding at July 31, 2018	<u>676,000</u>	\$ 1.10	<u>4.0</u>	<u>\$ 626,360</u>
Exercisable at July 31, 2018	<u>676,000</u>	\$ 1.10	<u>4.0</u>	<u>\$ 626,360</u>
Available for grant at July 31, 2018	<u>507,611</u>			

Compensation cost for stock options granted is based on the fair value of each award, measured by applying the Black-Scholes model. As of July 31, 2018, there was no unamortized compensation cost related to stock options.

#### Treasury Stock

In July 2016, our board of directors approved a \$2.0 million stock repurchase program to purchase our common stock in the open market or in privately negotiated transactions from time to time, in compliance with Rule 10b-18 of the Securities and Exchange Act of 1934, subject to market conditions, applicable legal requirements, loan covenants and other factors. The repurchase plan does not obligate the Company to acquire any specified number or value of common stock. During the three months ended July 31, 2018, the Company did not repurchase any shares. As of July 31, 2018, \$1.7 million remains available under the share repurchase authorization.

#### Note 9. Computation of Earnings Per Share

The following is presented as a reconciliation of the numerators and denominators of basic and diluted earnings per share computations:

	<b>Three Months Ended</b>	
	<b>July 31, 2018</b>	<b>July 31, 2017</b>
<b>Numerator:</b>		
<b>Basic and Diluted:</b>		
Net income from continuing operations	\$ 85,594	\$ 73,015
Net (loss) income from discontinued operations	\$ (137,438)	\$ 50,987
Net (loss) income	<u>\$ (51,844)</u>	<u>\$ 124,002</u>
<b>Denominator:</b>		
Basic weighted average number of common shares outstanding	16,848,182	17,425,581
Dilutive effect of common stock options and warrants	331,741	359,333
Diluted weighted average number of common shares outstanding	<u>17,179,923</u>	<u>17,784,914</u>
<b>Per share information:</b>		
Net income from continuing operations per common share - basic	\$ 0.01	\$ 0.01
Net income from continuing operations per common share - diluted	\$ 0.00	\$ 0.00
Net (loss) income from discontinued operations per common share - basic and diluted	\$ (0.01)	\$ 0.00
Net (loss) income per common share - basic and diluted	<u>\$ (0.00)</u>	<u>\$ 0.01</u>

Securities that could potentially dilute basic earnings per share were not included in the computation of diluted earnings per share because to do so would have been antidilutive for the periods presented.

#### Note 10. Commitments and Contingencies

We are party to contracts in the ordinary course of business, including leases for real property and operating leases for equipment.

The expected remaining future annual minimum lease payments as of July 31, 2018, are as follows:

<b>Period</b>	<b>Total</b>
August 2018 - July 2019	\$ 3,298,251
August 2019 - July 2020	3,226,007
August 2020 - July 2021	3,086,663
August 2021 - July 2022	1,910,944
Thereafter	1,290,752
	<u>\$ 12,812,617</u>

We indemnified our officers and directors for certain events or occurrences while the director or officer is or was serving at our request in such capacity. The maximum potential amount of future payments we could be required to make under these indemnification obligations is unlimited; however, we have a Directors and Officers Liability Insurance policy that limits our exposure and enables us to recover a portion of any future amounts paid, provided that such insurance policy provides coverage.

## **Note 11. Income Taxes**

The Tax Cuts and Jobs Act ("Tax Act") was enacted on December 22, 2017. The Tax Act reduces the US federal corporate tax rate from 35% to 21%. At July 31, 2018, we have not completed our accounting for the tax effects of enactment of the Act; however, in certain cases, as described below, we have made a reasonable estimate of the effects on our existing deferred tax balances. For any amounts we have not been able to make a reasonable estimate, we will continue to account for those items based on our existing accounting under ASC 740, Income Taxes, and the provisions of the tax laws that were in effect immediately prior to enactment. In all cases, we will continue to make and refine our calculations as additional analysis is completed. In addition, our estimates may also be affected as we gain a more thorough understanding of the tax law.

Given the significance of the legislation, the U.S. Securities and Exchange Commission (the "SEC") staff issued Staff Accounting Bulletin ("SAB") No. 118 (SAB 118), which allows registrants to record provisional amounts during a one year "measurement period" similar to that used when accounting for business combinations. However, the measurement period is deemed to have ended earlier when the registrant has obtained, prepared, and analyzed the information necessary to finalize its accounting. During the measurement period, impacts of the law are expected to be recorded at the time a reasonable estimate for all or a portion of the effects can be made, and provisional amounts can be recognized and adjusted as information becomes available, prepared, or analyzed. SAB 118 summarizes a three-step process to be applied at each reporting period to account for and qualitatively disclose: (1) the effects of the change in tax law for which accounting is complete; (2) provisional amounts (or adjustments to provisional amounts) for the effects of the tax law where accounting is not complete, but that a reasonable estimate has been determined; and (3) a reasonable estimate cannot yet be made and therefore taxes are reflected in accordance with law prior to the enactment of the Tax Act.

Several provisions of the Tax Act have significant impact on our U.S. tax attributes, generally consisting of credits, loss carry-forwards, and reserved notes. Although we have made a reasonable estimate of the gross amounts of the attributes disclosed, the Company is continuing to analyze certain aspects of the Tax Act and is refining its calculations which could potentially affect the measurements of these balances or potentially give rise to new deferred tax amounts. Other significant provisions that are not yet effective, but may impact income taxes in future years, include: limitation on the current deductibility of net interest expense in excess of 30 percent of adjusted taxable income and a limitation of net operating losses generated after December 31, 2017 to 80 percent of taxable income.

For the three months ended July 31, 2018 and 2017, our effective tax rates were 22% and 33%, respectively. The difference between the federal statutory rate of 21% and the 2018 year to date's effective tax rate is primarily due to nondeductible expenses. The difference between the 2017 federal statutory rate of 34.0% and the 2017 fiscal year to date effective tax rate was primarily due to utilization of general business credits.

At July 31, 2018, we have \$0.7 million in net deferred tax assets, which is primarily a result of net operating losses. We believe that it is more-likely-than-not that the deferred tax assets will be realized prior to any expiration and therefore we have not applied a valuation allowance on our deferred tax assets.

We filed income tax returns in the United States federal jurisdiction. No jurisdiction is currently examining our tax filings for any tax years. All of the Company's tax positions are considered more likely than not to be sustained upon an IRS examination.

## **Note 12. Segment Reporting**

We have three business segments: (i) Washington, (ii) South Dakota and (iii) Nevada, as well as the Company's corporate location. For the three months ended July 31, 2018, the Washington segment consists of the Washington mini-casinos, the South Dakota segment consists of our slot route operation in South Dakota, the Nevada segment consists of Club Fortune casino and the Corporate column includes the vacant land in Colorado and its taxes and maintenance expenses. As discussed in Note 13, in the three months ended July 31, 2018, the Nevada reportable segment met the requirements to be classified as a discontinued operation. As a result, the operations of Nevada have been excluded from the segment reporting below. See Note 13 for information related to the Nevada segment. The Corporate column also includes corporate-related items, results of insignificant operations, and income and expenses not allocated to other reportable segments.

Summarized financial information for our reportable segments from continuing operations is shown in the following table:

	<b>As of, and for the Three Months Ended, July 31, 2018</b>			
	<b>Washington</b>	<b>South Dakota</b>	<b>Corporate</b>	<b>Total</b>

Segment assets at July 31, 2018 were: Washington \$28,486,842; South Dakota \$51,194; Corporate \$3,741,782. Segment assets at July 31, 2017 were: Washington \$27,057,107; South Dakota \$2,360,534; Corporate \$4,444,938.

### Note 13. Discontinued Operations

On June 27, 2018, the Company entered into a definitive agreement to sell its Club Fortune casino property in Henderson, Nevada, for \$14.6 million, subject to certain adjustments, including a working capital adjustment. The transaction is expected to be completed in late December 2018, subject to Nevada Gaming Control Board approval and other customary closing conditions.

As of July 27, 2018, Club Fortune met the requirements for presentation as assets held for sale and discontinued operation under generally accepted accounting principles. As a result of Club Fortune meeting the criteria to be classified as held for sale, the Company recorded a goodwill impairment of \$115,128 and a loss on reclassification as held for sale of \$84,872, which primarily represented the estimated cost to sell Club Fortune. The operations of Club Fortune have been classified as discontinued operations and as assets held for sale for all periods presented.

The results of discontinued operations are summarized as follows:

	<b>Three months ended</b>	
	<b>July 31, 2018</b>	<b>July 31, 2017</b>
Gross revenues	\$ 3,219,413	\$ 3,996,962
Less promotional allowances	-	(571,318)
Net revenues	3,219,413	3,425,644

Income tax (benefit) expense	(38,658)	24,414
(Loss) income from discontinued operations, net of tax	\$ (137,438)	\$ 50,987

The assets and liabilities held for sale related to Club Fortune were as follows:

	<b>July 31, 2018</b>	<b>April 30, 2018</b>
<b>Assets:</b>		
Accounts receivable, net	\$ 63,588	\$ 140,370

Property and equipment, net	9,387,401	9,558,045
Total assets held for sale	<u>\$ 13,791,349</u>	<u>\$ 14,204,952</u>
<b>Liabilities:</b>		
Accounts payable and accrued liabilities	\$ 349,120	\$ 345,231
Accrued payroll and related	153,085	238,688
Accrued player's club points and progressive jackpots	351,516	318,801
Total liabilities held for sale	<u>\$ 853,721</u>	<u>\$ 902,720</u>

On June 30, 2018, the Company sold its South Dakota route operations to Michael J. Trucano. The sale included all fixtures, equipment, trade names, and operating agreements used in connection with the business, but excluded necessary operating cash used in the business. Because this sale did not represent a strategic shift that would have a major effect on the Company's operations, the sale was recorded as a sale of assets and not as discontinued operations.

## **Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following discussion and analysis ("MD&A") should be read in conjunction with our condensed consolidated financial statements and notes thereto included in Item 1 of this Quarterly Report and with Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report for the year ended April 30, 2018, filed on Form 10-K with the SEC on July 26, 2018.

### **Critical Accounting Policies and Estimates**

Our discussion and analysis of our financial condition and results of operations is based upon our condensed consolidated financial statements. We prepare these financial statements in conformity with GAAP. As such, we are required to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the periods presented. We base our estimates on historical experience and on various other assumptions that we believe are reasonable under the circumstances, the results of which form the basis for making judgments. On an on-going basis, we evaluate our estimates; however, actual results may differ from these estimates under different assumptions or conditions. There have been no material changes or developments in our evaluation of the accounting estimates and the underlying assumptions or methodologies that we believe to be Critical Accounting Policies and Estimates as disclosed in our Annual Report for the year ended April 30, 2018, filed on Form 10-K with the SEC on July 26, 2018.

## Executive Overview

We were formed in 1977 and, since 1994, have primarily been a gaming company involved in financing, developing, owning and operating gaming properties. Our gaming facility operations are located in the United States of America (“U.S.”), specifically in the states of Nevada and Washington. Our financial results are dependent upon the number of patrons that we attract to our properties and the amounts those guests spend per visit. Additionally, our operating results may be affected by, among other things, overall economic conditions affecting the disposable income of our guests, weather conditions affecting our properties, achieving and maintaining cost efficiencies, competitive factors, gaming tax increases and other regulatory changes, the commencement of new gaming operations and construction at existing facilities. We may experience significant fluctuations in our quarterly operating results due to seasonality, variations in gaming hold percentages and other factors. Consequently, our operating results for any quarter or year are not necessarily comparable and may not be indicative of future periods’ results.

### *Items Impacting Income from Continuing Operations*

*Discontinued Operations* - As of July 27, 2018, Club Fortune met the requirements for presentation as assets held for sale and discontinued operation under generally accepted accounting principles. Accordingly, the operations of Club Fortune have been classified as discontinued operations and as assets held for sale for all periods presented.

## COMPARISON OF THE THREE MONTHS ENDED JULY 31, 2018 AND JULY 31, 2017

**Net revenues.** Net revenues were \$14.9 million for the three months ended July 31, 2018, and \$15.0 million for the same period ended July 31, 2017. The \$0.1 million decrease is primarily due to a \$1.0 million decrease in casino revenue at our South Dakota operations because it was sold June 30, 2018, offset by a \$0.9 million increase from our Washington properties. Converting one of our Washington properties to all poker increased poker revenue by \$0.5 million and this quarter’s hold percentage was above prior year’s low hold percentage, increasing revenue by \$0.4 million.

**Total operating expenses.** Total operating expenses were \$14.7 million for the three months ended July 31, 2018 and July 31, 2017. Excluding South Dakota and comparing before the impact of the revenue recognition changes (see Note 2), total operating expenses increased by \$0.8 million for this quarter compared to prior year’s quarter ended July 31. Food and beverage expenses in Washington increased by \$0.2 million due to minimum wage and an increase in cost of goods sold associated with Washington’s \$0.1 million increase in food and beverage revenue. Marketing and administration increased \$0.1 million due to increased marketing and promotions at our Washington properties. Depreciation and amortization decreased \$0.1 million due to customer relationship intangible assets being fully amortized. Corporate expenses increased \$0.6 million primarily due to \$0.5 million of professional fees related to the sale of the South Dakota slot route and Club Fortune. Casino, facility and other expenses remained relatively steady when compared to the same period last year.

**Non-operating income (expense).** Total non-operating expense decreased \$44,789 for the three months ended July 31, 2018, compared to the same period ended July 31, 2017, primarily due to the decrease in interest expense as a result of lower debt balance.

**Income taxes.** For the three months ended July 31, 2018 and 2017, our effective tax rates were 22% and 33%, respectively. The difference between the current and prior year’s quarterly federal effective tax rate is because last year’s statutory rate was 34% since the Tax Cuts and Jobs Act was not enacted until December 2017.

## Non-GAAP Financial Measures

The term “adjusted EBITDA” is used by us in presentations, quarterly earnings calls, and other instances as appropriate. Adjusted EBITDA is defined as net income before interest, income taxes, depreciation and amortization, change in swap fair value, goodwill and other long-lived asset impairment charges, write-offs of project development costs, acquisition costs, litigation charges, non-cash stock grants, non-cash employee stock purchase plan discounts, amortization of deferred rent, net income or loss from assets held for sale, and net losses/gains from asset dispositions. Adjusted EBITDA is presented because it is a required component of financial ratios reported by us to our lenders, and it is also frequently used by securities analysts, investors, and other interested parties, in addition to and not in lieu of GAAP results, to compare to the performance of other companies that also publicize this information.

Adjusted EBITDA is not a measurement of financial performance under GAAP and should not be considered as an alternative to net income as an indicator of our operating performance or any other measure of performance derived in accordance with GAAP.

The following tables show adjusted EBITDA from continuing operations by operating unit:

For the three months ended:	Adjusted EBITDA			
	Washington	South Dakota	Corporate	Total
July 31, 2018	\$ 1,768,284	\$ (257,608)	\$ (741,013)	\$ 769,663
July 31, 2017	\$ 1,150,031	\$ 90,751	\$ (582,635)	\$ 658,147

Net loss reconciliation to Adjusted EBITDA from continuing operations:

	For the three months ended	
	July 31, 2018	July 31, 2017
Net income from continuing operations	\$ 85,594	\$ 73,015
Adjustments:		
Net interest expense and change in swap fair value	107,226	152,015
Income tax expense	24,207	35,918
Depreciation and amortization	130,439	337,938
Sale related expenses	482,202	-
Gain on sale of assets	(57,692)	-
Stock compensation	12,570	58,537
Amortization of deferred rent	(14,883)	724
Adjusted EBITDA from continuing operations	\$ 769,663	\$ 658,147

Adjusted EBITDA from discontinued operations was \$246,494 and \$452,651 for the quarter ended July 31, 2018 and 2017, respectively.

## Liquidity and Capital Resources

### Historical Cash Flows

The following table sets forth our consolidated net cash provided by (used in) operating, investing and financing activities for continuing operations for the three months ended July 31, 2018 and 2017:

	Three Months Ended	
	July 31, 2018	July 31, 2017
<b>Net cash provided by (used in):</b>		
Operating activities	\$ 35,967	\$ (732,571)
Investing activities	\$ 128,839	\$ 412,089
Financing activities	\$ (1,100,000)	\$ (1,618,485)

**Operating activities.** Net cash used in operating activities during the three months ended July 31, 2018, decreased by \$0.8 million over the comparable period in the prior fiscal year. The decrease primarily resulted from the change in operating assets and liabilities.

**Investing activities.** Net cash provided from investing activities during the three months ended July 31, 2018, decreased by \$0.3 million compared to the prior fiscal year primarily due to a \$0.4 million decrease in distributions from Club Fortune.

**Financing activities.** Net cash used in financing activities during the three months ended July 31, 2018, decreased \$0.5 million compared to the prior fiscal year. The decrease mainly resulted from the \$1.6 million purchase of treasury stock offset by proceeds from the credit facility.

#### **Future Sources and Uses of Cash**

We expect that our future liquidity and capital requirements will be affected by cash flow from operations, working capital requirements, and debt service requirements.

In July 2016, our board of directors approved a \$2.0 million stock repurchase program to purchase our common stock in the open market or in privately negotiated transactions from time to time, subject to market conditions, applicable legal requirements, loan covenants and other factors. The repurchase plan does not obligate the Company to acquire any specified number or value of common stock. On July 12, 2017, the board of directors authorized an additional \$2.0 million for future stock purchases, either in the open market or in private transactions. During the three months ended July 31, 2018, the Company did not repurchase any shares. As of July 31, 2018, \$1.7 million remains available under the share repurchase authorization.

As of July 31, 2018, we have \$9.2 million available to borrow per the Credit Agreement. Principal reductions due on the Credit Facility are as follows:

August 1, 2018 – July 31, 2019	\$	-
August 1, 2019 – July 31, 2020		-
August 1, 2020 – November 30, 2020		<u>6,900,000</u>
Total payments		6,900,000
Unamortized debt discount		<u>(82,206)</u>
Total long-term debt	\$	<u>6,817,794</u>

On July 31, 2018, excluding restricted cash of \$2,517,272, we had cash and cash equivalents of \$8,423,498. The restricted cash consists of funds for player supported jackpots for our Washington operations.

Washington state increased the state minimum wage from \$11.00 in the prior year to \$11.50 per hour effective January 1, 2018. The minimum wage is scheduled to increase to \$12.00 in 2019, \$13.50 in 2020 and would thereafter be indexed to inflation. The company estimates the January increase could impact its Washington payroll expense by \$0.5 million annually before offsetting changes planned to mitigate the impact of the minimum wage increase.

Our condensed consolidated financial statements have been prepared assuming that we will have adequate availability of cash resources to satisfy our liabilities in the normal course of business. We have made arrangements to ensure that we have sufficient working capital to fund our obligations as they come due. We believe that funds from operations will provide sufficient working capital for us to meet our obligations as they come due; however, there can be no assurance that we will be successful. Should cash resources not be sufficient to meet our current obligations as they come due, repay or refinance our long-term debt, and acquire operations that generate positive cash flow, we would be required to curtail our activities and maintain, or grow, at a pace that cash resources could support.

#### **Off-Balance Sheet Arrangements**

None.

#### **Item 3. Quantitative and Qualitative Disclosures about Market Risk**

Not required for smaller reporting companies.

#### **Item 4. Controls and Procedures**

**Disclosure controls and procedures.** We maintain disclosure controls and procedures that are designed to provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit to the SEC under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), is recorded, processed, summarized and reported within the time periods specified by the SEC’s rules and forms, and that information is accumulated and communicated to our management, including our President and Chief Financial Officer (“CFO”), as appropriate to allow timely decisions regarding required disclosure.

In accordance with Rules 13a-15 and 15d-15 of the Exchange Act, we carried out an evaluation, under the supervision and with the participation of management, including our President and CFO, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. As a result of our evaluation, we concluded that our disclosure controls and procedures were effective as of July 31, 2018.

**Changes in internal controls over financial reporting.** There have not been any changes in our control over financial reporting during the three months ended July 31, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## **Part II. Other Information**
